

NOTES FROM A PROFITABLE INVESTOR

Chapter 5: Upper Studies

For the above ticker symbol or another one of your choice, find that tool on your analysis website (www.stockcharts.com, for example, if you don't have a broker yet), and draw:

SMA (Simple Moving Average)

13, 20, 50, 200.

EMA. Use the same time frames for SMA and compare the results:

Bollinger Bands.

- Can you find the 20 SMA?
- How does this affect your view of Support and Resistance?

Parabolic SAR

NOTES FROM A PROFITABLE INVESTOR

- Does this help you re-define your Support and Resistance lines?

Define the Buy and Sell "set ups" on the upper studies.

How does combining the lower studies with the upper studies help you expand your perspective and decisions?
